The aerial photograph shown is from the ORTHO_1F layer found at the Maine Office of Geographic Information Systems

ORTHO_1F is an image mosaic of true color (24-bit), 1 foot ground sample distance (GSD), high resolution digital orthophotographs produced from aerial photos collected in the Spring of 2003, 2004, or 2005. Each pixel represents a planimetric square .1foot on a side on the ground. Aerial photography for ORTHO_1F was flown at 6,000 feet above mean ground level.
